Application Number: 10/813,911 Page 1

Art Unit: 3662

1. Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for

failing to particularly point out and distinctly claim the subject matter which applicant regards as

the invention.

Claim 10 recites the limitation "the same" in line 2. There is insufficient antecedent basis for this

limitation in the claim.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the

basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign

country or in public use or on sale in this country, more than one year prior to the date of

application for patent in the United States.

3. Claims 1-5, 7 & 9-16 are rejected under 35 U.S.C. 102(b) as being anticipated by

US6262679. The US6262679 reference discloses the utilization of a collision avoidance system

for a formation of military aircraft, to distinguish between members and nonmembers of the

formation, that provides voice alerts and a display to indicate formation fall-in (see abstract)

meeting the features of claims 1, 11 & 12.

With regards to claims 2 & 14 the signals are provided by a MCAS or TCAS (see abstract).

With regards to claim 3 & 15 an announcement is generated (see abstract).

With regards to claim 4 & 16 the air space is around the aircraft is divided in to caution and

warning zones (see abstract).

With regards to claim 5 the reference does not disclose the utilization of the announcement

"traffic traffic" (see entire document).

With regards to claim 7 the utilization of military aircraft is disclosed (see abstract).

With regards to claims 9 & 10 the air space is around the aircraft is divided in to a plurality of

zones (see abstract).

Page 2 Application Number: 10/813,911

Art Unit: 3662

With regards to claim 13 the reference discloses a refueling mode (see abstract).

Claims 6, 8 & 17 are objected to as being dependent upon a rejected base claim, but

would be allowable if rewritten in independent form including all of the limitations of the base

claim and any intervening claims.

5. Claims 18-28 are allowed.

Any inquiry concerning this communication or earlier communications from the examiner 6.

should be directed to Dan Pihulic whose telephone number is 571-272-6977. The examiner can

normally be reached on Tuesday through Thursday from 5:30 a.m. to 4 p.m. If attempts to reach

the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Tarcza, can be

reached on 571-272-6979.

The fax phone numbers for the organization where this application or proceeding is assigned

are:

571-273-8300 for official responses, and

571-273-6977 for unofficial communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should

be directed to the receptionist whose telephone number is 571-272-3600.

Information regarding the status of an application may be obtained from the Patent Application

Information Retrieval (PAIR) system. Status information for published applications may be

obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private

PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
